1. The proposed EIC survey of professional personnel in the US government engaged in economic intelligence research was discussed in reference meetings and memorandum. At the EIC meeting on 15 October (see reference (c) above), forms for reporting on personnel engaged in Bloc research were reviewed and have been revised to include proposed changes. It was agreed at this meeting that the State Department representative would prepare similar forms for reporting of personnel engaged in non-Bloc economic research; and that forms and instructions would be reviewed by the EIC prior to submitting them to the reporting agencies for preparation of the survey data.

2. The attached forms for use in reporting personnel engaged in economic research on Bloc and non-Bloc areas, together with the instructions, are forwarded for your review. Please advise the EIC Secretariat (Code 143, extension 3707) of your approval, or comments and suggestions, as soon as possible, but not later than 16 December 1957.
